

Tutorial AEREUM

1.- Ir a:

https://aereum.org/register_pilot.php

Cumplimentar el formulario de registro. En VA elegir XSN Air Spain

The image shows a web registration form titled "Register" with a group of people icon. The form contains several input fields and a dropdown menu:

- Your First Name**: Text input field with a person icon on the right.
- Your Last Name**: Text input field with a person icon on the right.
- Country**: Dropdown menu with a double-headed arrow icon.
- IVAO VID**: Text input field with a person icon on the right.
- VATSIM CID**: Text input field with a person icon on the right.
- Virtual Airways**: Dropdown menu with a double-headed arrow icon. The list is open, showing several options: VAR - VirtuAliRoma, VBD - Va Bird, VLG - Vueling Virtual, VNS - Venus Virtual, XAS - Alair Virtual Airlines, and **XSN - Air Spain** (highlighted in blue).
- Below the Virtual Airways dropdown is a partially visible text input field with a person icon on the right.

Recibiréis un correo con vuestros datos.

2.- Actualizar en nuestra web esos datos en MIS DATOS/MIS DATOS Id aereum:

ID aereum:

3.- Ahora ingresaremos en nuestro apartado de aereum en:

<https://central.aereum.org/index.php>

Debemos conseguir ver esto:

Lo más complicado es la Billetera donde nos pagarán, tampoco es tan difícil.

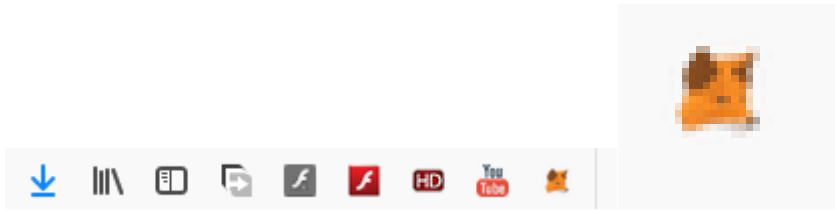

4.- entrad en:

<https://metamask.io/>

Instalad el complemento correspondiente a vuestro navegador. En este caso es Firefox:

Una vez instalado veréis arriba a la derecha el icono de la aplicación:

Pinchad y seguid el proceso de registro, una vez que lo tengáis, pinchad otra vez y pinchad en los 3 puntitos

Pinchad en Copy to clipboard.

5.- Ahora nos vamos a nuestra página de Aereum a cambiar perfil. En el campo Billetera o Wallet pegamos lo que copiamos antes.

LISTO ¡¡¡ hemos acabado.

Normas para un correcto vuelo, os lo pongo según aparece en su canal de discord, no es complicado:

Nr.1 Before connecting to IVAO or VATSIM network, be sure your flightplane has been filled CORRECTLY; Nr.2 Do not modify the arrival airport during the flight because it will NOT be recorded by Aereum! Nr.3 Before taxiing to runway, be sure you are CONNECTED at least from 6 minutes at the gate. Nr.4 Transponder mode must be STBY before departure - CHARLIE during line up and throughout the flight - STBY again vacating the runway and taxiing to the Gate;

Nr.5 Whether you declare the cruise altitude in the IVAO or VATSIM flightplan, you MUST reach it during the flight (in case of VFR flight, set VFR in the "cruise level" section). Besides, be sure that your flight status (CLIMBING - CRUISE - DESCEND) is correct in the live map; Nr.6 After landing, be sure that your status is LANDED or TAXY TO THE GATE; Nr.7 After the shutdown, stay CONNECTED at least 6 minutes at the gate.
